Bell Laboratories Science Fiction Club

Intended Purpose

Our group will serve primarily as an outlet for discussion of popular science fiction, both current and the "classics." Secondly, we will serve as a focal point for people with interests in the expression of the fantastic in all forms of art: the novel, short story, film, painting, music, etc.

We will have regular meetings to discuss topics determined at previous meetings. Usually this will take the form of a discussion of a novel. We hope to attract local science fiction authors and artists to speak to the group and to broaden our understanding and perhaps even our writing abilities in the field.

Chairperson: Mark R. Leeper - HO 1B-512 x7093
